PROFILE

Computer Engineering student with a strong focus on **programming** and **web development** using **ASP.NET Core**. Completed **CCNA coursework**, gaining essential networking knowledge. Passionate about building scalable, efficient web applications. Worked on several university projects, including optimizing routing protocols and web-based solutions. Eager to apply my programming and networking skills in a professional setting.

EDUCATION

Bachelor's Degree in Computer Engineering

Al Balqa Applied University, Faculty of Engineering Technology

2021 – 2026

Amman

SKILLS

Programming Languages

C#, ASP.NET ⚡ Core, SQL, Java ,Python , OOP

Networking

Completed CCNA coursework (Routing, Switching, Security)

Tools

Git/GitHub, Visual Studio, SQL Server Management Studio (SSMS)

Networking Tools

GNS3, VMware, Cisco Packet Tracer

LANGUAGES

Arabic

English

PROJECTS

Optimizing Routing Protocol Configuration Time Using Python Automation with GUI

- Developed an automated GUI-driven platform for optimizing RIP protocol configurations.
- Reduced deployment time by implementing Python-based orchestration and intelligent verification.
- **Technologies Used:** Python, Tkinter (for GUI), Networking protocols, CCNA principles.

CERTIFICATES

- ASP.NET Core – Coderz
- CCNA: Introduction to Networks
- CCNA: Switching, Routing, and Wireless Essentials
- CCNA: Enterprise Networking, Security, and Automation

INTERESTS

Programming — Passionate about learning and mastering different programming languages and frameworks. | **Web Development** — Focused on creating dynamic and efficient web applications |

Software Engineering — Interested in the development lifecycle, including design, testing, and deployment of software.
